

INTEGRATED MANAGEMENT SYSTEM POLICY

With the participation and contribution of all our employees, we commit continuous development and advancement with our achievements in the fields of quality, environment, and occupational safety and health. For this purpose, our aims are;

Quality

- To ensure the continuity of the Quality Management System that keeps customer satisfaction at the highest level, manages customer feedbacks efficiently and effectively, and aims continuous improvement by providing products and services in accordance with the technical specifications as well as related standards.

Occupational Safety and Health

- To provide the necessary training and inform all our employees by supplying a healthy and safe working environment, and to aim and ensure the sustainability of the principles of zero accident and occupational diseases.

Environment

- To control our impact to the environment by providing the minimization of the waste at its source, the reuse and recycle of the waste as much as possible, and the elimination of the waste that cannot be recycled with appropriate methods.

Energy

- To ensure effective and efficient usage of energy, raw materials and natural resources.

Compatible and Sustainable Organization

- To create a continuously evolving organizational structure which perceives customer needs and expectations correctly, follows technologic developments and educates itself, shares the information, coordinates with the employees and suppliers, and evaluates the effectiveness of the processes and their risks and opportunities.

Compliance with Laws and Regulations

- To comply with all the relevant laws, regulations and standards in force and to pursue them consistently.
- To work in compliance with the 10 Principles stated in the United Nations Global Compact.

Customer Focused

- To contribute to the development of wind energy sector in our country and neighboring countries by meeting the needs and expectations of our customers with our integrated production and services.
